# PRADEEP SAINI

*Java Backend Developer*

Gurugram | +91-7897466223 | pradeepsaini517@gmail.com | LinkedIn | HackerRank |

## PROFESSIONAL SUMMARY

Java Backend Developer with **5 years of experience** designing and developing scalable, secure backend systems using **Java, Spring Boot, REST APIs, and microservices**. Experienced in building event-driven architectures, optimizing API performance, and resolving production issues. Proven ability to deliver reliable, maintainable enterprise applications through clean coding, unit testing, code reviews, and performance optimization.

## TECHNICAL SKILLS

**Languages:** Core Java (8/11/17/21), Multithreading, Collections, Streams, Executor Framework, Data Structures
**Backend & Frameworks:** Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, REST API Design, Microservices Architecture, Apache KafkaS, Swagger/OpenAPI
**Databases:** Oracle 10 g MySQL, Postgres SQL, MongoDb
**Cloud & DevOps:** AWS (S3, EC2 AWS Lambda) Docker, Kubernetes, CI/CD, Jenkins, Maven, gradle
**Monitoring & Observability:** Grafana , Splunk
**Tools:** Git, Bitbucket, Jira, SonarQube, IntelliJ IDEA, Postman , Putty, Winscp, HCl Client,
**Testing:** JUnit, Mockito, Integration Testing
**Methodology:** Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Software Engineering Sr Analyst | Accenture Solutions Private Limited, Gurugram (Sep 2026 – Present)

**TIAA (Teachers Insurance and Annuity Association of America)**

- Designed and implemented micro services following scalable and **modular architecture**.
- Engineered scalable **RESTful APIs** with Java 21 and Spring Boot, **cutting average response latency by 25%** through query optimization and streamlined business logic.
- Delivered feature enhancements on schedule while maintaining backward compatibility and minimizing production impact.
- Investigated and resolved **production issues** through Root Cause Analysis (RCA), using **Splunk** for real-time log analysis, ensuring application stability and minimal business impact.
- Increased **JUnit** test coverage to over **90%**, improving reliability and reducing regression defects.
- Collaborated with QA engineers and frontend developers to develop, test, and integrate backend APIs, ensuring timely delivery of key features.

### System Engineer | Tata Consultancy Services pvt. ltd Noida ( Aug 2024 - Sep-2026)

**GEMS(Government e-Marketplace India)**

- Designed and developed **RESTful APIs** to video app backend applications using Java, Spring Boot, and microservices.
- Designed and implemented RESTful APIs for vendor onboarding and assessment functionalities.
- Designed and developed RESTful APIs for peer-to-peer **(P2P) video calling** and streaming applications using Java, Spring Boot, Janus and microservices architecture, enabling seamless real-time video communication.
- Optimized **SQL queries** via indexing and **N+1** elimination on high-traffic endpoints, cutting DB round-trip time by **25%**.

### Associate Software Engineer – Tech Mahindra pvt ltd (Sept 2021 – Aug-2024)

**AT&T (American Telephone and Telegraph Company)**

- Developed and maintained backend components using Java, Spring Boot, and **RESTful API**s to support business requirements and application functionality.
- **Optimized SQL** queries and database operations, resolved application defects, and improved system performance and production stability.
- Provided production support using **Grafana and Splunk** to monitor applications, analyze logs, perform Root Cause Analysis (**RCA**), troubleshoot incidents, and maintain application stability.
- Automated routine tasks using **Bash Shell Scripting** and scheduled batch jobs; performed **unit testing, and integration testing** to ensure application reliability.

## EDUCATION

**Bachelor of Computer Applications (BCA)**
Naraina College of Management, Panki Kanpur, Uttar Pradesh |2020 |
